A child who is a full-time student is also considered an eligible dependent as long as the child is attending an educational institution recognized under the Income Tax Act (Canada) at least 10 hours per week.

	If a child becomes disabled before the maximum age and remains continuously disabled, we will continue coverage if they are not able to support themselves financially because of a disability and must rely on you financially. Legal actions for insured benefits

Limitation period for Ontario:

Every action or proceeding against an insurer for the recovery of insurance money payable under the contract is absolutely barred unless commenced within the time set out in the *Limitations Act, 2002*.

Limitation period for any other province:

Every action or proceeding against an insurer for the recovery of insurance money payable under the contract is absolutely barred unless commenced within the time set out in the *Insurance Act* or other applicable legislation of your province or territory.

Legal actions for self-insured benefits

Where the applicable legislation of your province or territory permits the use of a different limitation period, every action or proceeding for the recovery of money payable under the plan is absolutely barred unless it is commenced within one year of the date that we must receive your claim forms. Otherwise, every action or proceeding for the recovery of money payable under the plan must be commenced within the time set out in the applicable legislation of your province or territory.

Coordinating your benefits with another plan

If you or your dependents are covered for Extended Health Care or Dental Care under this plan and another plan, the maximum amount that you can receive from all plans is 100% of the total eligible expenses.

When you have more than one plan, insurance industry standards determine which plan you should claim expenses from first.

Please send in claims for you and your spouse in the following order:

- First, send in the claim to the plan where the person is covered as an employee. If the person is an employee under two plans, send the claim to the different plans in the following order:
  - to the plan where the person is covered as an active full-time employee.
  - then, to the plan where they are covered as an active part-time employee.
  - then, to the plan where they are covered as a retiree.
- Next, send the claim to the plan where the person is covered as a dependent.

Please send in claims for a child in the following order:

- First send in the claim to the plan where the child is covered as an employee.
- Then, to the plan where they are covered under a student health or dental plan through their educational institution.
- Then, to the plan of whichever parent has the earlier birth date (month and day) in the calendar year. For example, if your birthday is May 1 and your spouse's birthday is June 5, you must claim under your plan first.

When you send us a claim, you must tell us about all other equivalent coverage that you or your dependents have.

Medical examination

We may require that you or your dependent have a medical examination if you make a claim. We will pay for the examination. If the person fails or refuses to have an examination, we will not pay any benefits.

Recovering overpayments

If we have overpaid any amount of benefit, we have the right to recover this money. We will:

- ask you to reimburse us,
- deduct that amount from other benefit payments, or
- recover that amount by any other legal means available.

Assignments

We reserve the right to deny your request for an assignment.

Extended Health Care

General description of the coverage

The contract holder has the sole legal and financial liability for this benefit in contract 153435. Sun Life only acts as administrator on behalf of the contract holder.

In this section, *you* means the employee and all dependents covered for Extended Health Care benefits.

Extended Health Care coverage pays for eligible expenses that you incur while covered under this plan.

Eligible expenses mean expenses incurred for the services and supplies described below that are medically necessary for the treatment of an illness and do not exceed the reasonable and customary charges for the service or supply being claimed. However, there are additional eligibility requirements that apply to drugs (see *Prior authorization program* for details).

Medically necessary means generally recognized by the Canadian medical profession as effective, appropriate and required for treating an illness according to Canadian medical standards.

Reasonable and customary charges mean:

- fees and prices normally charged in the regional area where the services or supplies are provided, and
- charges for services and supplies that represent reasonable treatment, considering the duration of services and how frequently services and supplies are provided.

To qualify for this coverage you must be entitled to benefits under a provincial medicare plan or federal government plan that provides similar benefits.

Reference to Doctor may also include a nurse practitioner – If the applicable provincial legislation permits nurse practitioners to prescribe or order certain supplies or services, Sun Life will reimburse those eligible services or supplies prescribed or ordered by a nurse practitioner the same way as if they were prescribed or ordered by a doctor. For drugs, refer to *Other health professionals allowed to prescribe drugs* outlined in the Benefit Summary.

Claiming when the expense is incurred	You must claim an expense for the benefit year in which you incur the expense. You incur an expense on the date you receive the service or purchase or rent supplies. The benefit year is indicated in the Benefit Summary. See the table **Instructions and Time Limits for Sending Us Your Claims** at the beginning of this booklet for information about when and how to make a claim.
Deductible, reimbursement level and maximum benefit	The deductible is the portion of claims that you are responsible for paying. After the deductible has been paid, claims will be paid up to the reimbursement level and maximum benefit under this plan. **For each type of service listed below, the deductible and the reimbursement level are indicated in the Benefit Summary. The maximum benefit for all expenses combined is also indicated in the Benefit Summary.**

Prescription drugs

Prescription drugs	We will cover the cost of the drugs and supplies that are listed in the Benefit Summary.
Quantity limit	Payments for any single purchase are limited to quantities that can reasonably be used in a 100 day period as ordered by a doctor.
What is not covered	We will not pay for the following, even when prescribed: • infant formulas (milk and milk substitutes), minerals, proteins, vitamins and collagen treatments. • the cost of giving injections, serums and vaccines. • proteins and food or dietary supplements. • hair growth stimulants. • products to help you quit smoking. • drugs for the treatment of sexual dysfunction. • drugs that are used for cosmetic purposes. • vaccines. • colostomy supplies • natural health products, whether or not they have a Natural Product Number (NPN). • drugs and treatments, and any services and supplies relating to the administration of the drug and treatment, administered in a hospital, on an in-patient or out-patient basis, or in a government-funded clinic or treatment facility.
Drug evaluation	The following drugs will be evaluated and must be approved by us to be eligible for coverage: • drugs that receive Health Canada Notice of Compliance for an initial or a new indication on or after November 1, 2017. • drugs covered under this plan and subject to a significant increase in cost. Drug expenses are eligible for reimbursement only if incurred on or after the date of our approval. We will assess the eligibility of the drug based on factors such as: • comparative analysis of the drug cost and its clinical effectiveness. • recommendations by health technology assessment organizations and provinces. • availability of other drugs treating the same or similar condition(s). • plan sustainability.
Prior authorization program	The prior authorization (PA) program applies to a limited number of drugs, where you must get approval in advance for coverage under the program. In order for drugs in the PA program to be covered, you need to provide medical information. Please use our PA form to submit this information. Both you and your doctor need to complete parts of the form. You will be eligible for coverage for these drugs if the information you and your doctor provide meets our clinical criteria based on factors such as: • Health Canada Product Monograph. • recognized clinical guidelines. • comparative analysis of the drug cost and its clinical effectiveness. • recommendations by health technology assessment organizations and provinces. • your response to preferred drug therapy. If not, your claim will be declined.

	See *How to Connect with Sun Life Financial* at the beginning of this booklet for information on how to obtain our prior authorization forms.
Reference Drug Program	The Reference Drug Program (RDP) applies to select drugs determined by Sun Life. Under RDP, Sun Life will: • group together a set of drugs that are used to treat the same condition(s) in the same or similar way (a *therapeutic category*). • determine the most cost-effective drug within a *therapeutic category* (the *Reference Drug*), considering such factors as cost to the plan, provincial programs, safety and clinical effectiveness. • limit the eligible cost of drugs in a particular *therapeutic category* to the eligible cost of the *Reference Drug* (the *Reference Drug Limit*). • apply the *Reference Drug Limit* to select province(s), excluding Québec. The selected province(s) may vary with each *therapeutic category*. For all *therapeutic categories*, the *Reference Drug Limit* applies to covered persons in the selected provinces having no previous claims for a non-*Reference Drug*. The *Reference Drug Limit* may also apply to covered persons with previous claims for a non-*Reference Drug* depending upon the *therapeutic category* and such factors as: • clinical support for switching to the *Reference Drug*. • expected duration of treatment. • provincial programs. Any claim submitted under this plan within 120 days before the date that Sun Life applies the *Reference Drug* to the plan is a previous claim. Any drug other than the *Reference Drug* in a *therapeutic category* is a non-*Reference Drug*. When the *Reference Drug Limit* applies, charges in excess of this limit are not covered, unless there is a medical reason for the covered person to take the non-*Reference Drug*. To assess medical necessity, Sun Life will require the covered person and the attending doctor to complete and submit an exception form.
