BC Hydro & Power Authority

Dear Ms. McDonald:

Earlier this week in an interview with online publication The Tyee I spoke inaccurately about the reasons for BC Hydro's repatriation of ABSBC and I speculated about details that I am not privy to. That was a mistake and I sincerely apologize to BC Hydro and Accenture for the error.

I'm firm that the repatriation is the right thing for our members. I look forward to strengthening our collaborative relationship with BC Hydro.

Sincerely,

David Black
President
