CONVENTION 2021

## **Guide to using the MoveUP 2021 Convention App**

The MoveUP Convention App is your hub for everything you need to get the most out of your Convention experience. The app provides you with easy access to key documents – including reports and newsletters – as well as the daily schedule, speaker bios, networking opportunities, and much more.

EventMobi, our convention app developer, will send an invitation to each delegate inviting them to register for an account for the MoveUP Convention app.

If you have not received this invitation, please let Kirstyn know at [kmallory@moveuptogether.ca](mailto:kmallory@moveuptogether.ca).

### **Do I have to download the app?**

The Convention app works on your computer browser as well. We encourage you to download the app to your mobile devices for easy access, but also for your convenience as there will be alert notifications with the latest updates -- this will keep you in the loop at all times during the Convention.

### **How do I register for an account?**

To register for an account, simply follow the prompts from the EventMobi email invitation. Once you have registered your account, you will be connected to the 2021 MoveUP Convention app and you will have access to all the sections and documents – including the latest updates.

### **What are the technical requirements needed to download the app?**

The Convention app can be accessed through your web browser if you are using a laptop computer at Convention. The convention app is very flexible and works on all sorts of systems, but make sure your tablet and phone are up to date. Here are the base requirements that any of your devices will need:

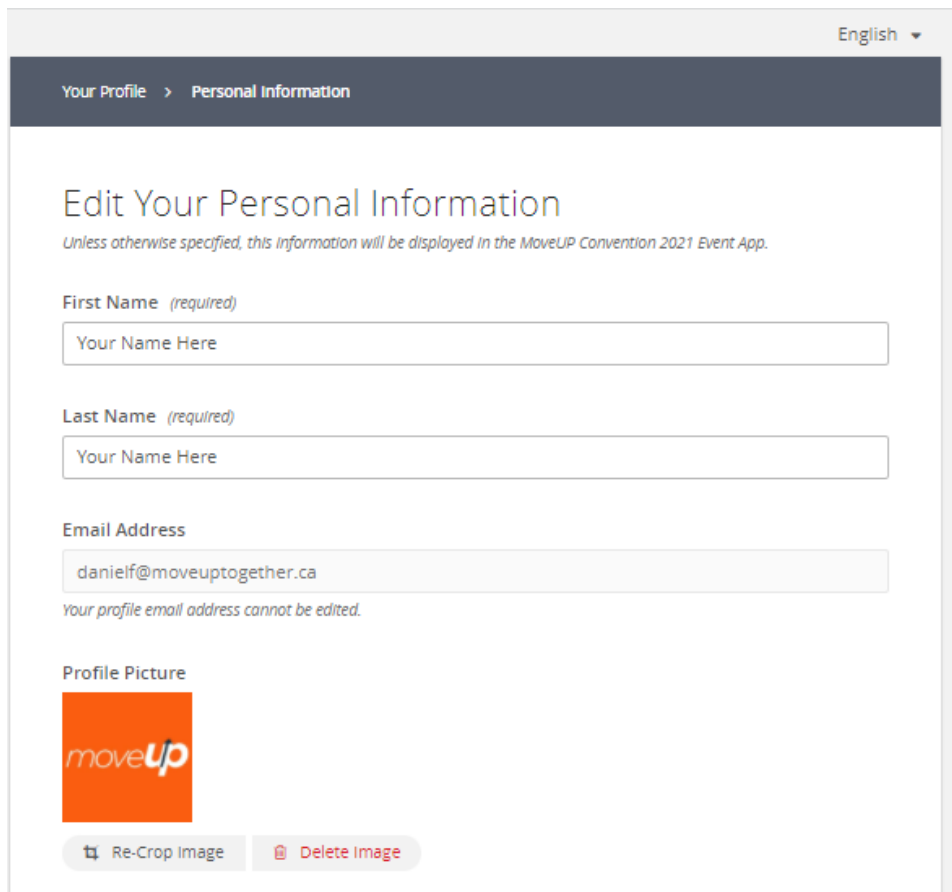

- iPhone/iPod touch: iOS 10.0 or higher
- iPad: iPadOS 10.0 or higher
- Android: 5.0 or higher
- Mac: macOS 11.0 or higher, and a Mac with Apple M1 chip

## What will I be able to access when I have the app?

With the app, you will be able to view: the agenda, including room locations for workshops and other events; documents related to the Convention including the resolutions booklet; the executive council report booklet, and policy documents related to our union and the Convention; bios of speakers; and also notices directly to your device.

## What is the profile used for?

When you are invited to connect to the event, you will also receive a prompt to set up your profile. Your profile is your way of showing your fellow delegates who you are, what you do, and from which bargaining unit you are from. You can also upload a photo so your fellow delegates can recognize you and find you if they wish to network with you, as well as share some of your social media profiles.

The screenshot shows a web interface for editing personal information. At the top right, there is a language selector set to "English". Below this is a dark navigation bar with "Your Profile" and "Personal Information". The main heading is "Edit Your Personal Information", with a sub-note: "Unless otherwise specified, this information will be displayed in the MoveUP Convention 2021 Event App." The form contains several fields: "First Name (required)" with a placeholder "Your Name Here"; "Last Name (required)" with a placeholder "Your Name Here"; "Email Address" with the value "daniel@moveuptogether.ca" and a note "Your profile email address cannot be edited." Below the email field is the "Profile Picture" section, which shows a placeholder image of the "moveup" logo. At the bottom of the profile picture section are two buttons: "Re-Crop Image" and "Delete Image".

### **Will I have to conduct any votes through the app?**

As our event is in-person, all voting will be done in traditional format using a show of hands. If voting is required for vice-president election(s), they will be conducted using a separate platform. However, you will receive notification on the app.

### **What happens if I lose my password to the convention app?**

Each time you login to the app you will be asked for your email address and password. Just like many systems, just click on the “Forgot password” link and you can reset it yourself. The app also allows you to remember your password and stay logged in if you want.
