

I have an extensive working history with the GEU. I started at the LMAO and have worked in every Area office from the Lower Mainland to Terrace (except Victoria & Nanaimo) – many of which I have done remotely. I have also completed assignments in the Negotiations, OH&S, and Advocacy departments. I started as a temp in 2011, I was regular, then went to law school in 2014. After graduating, I have temped on and off since 2018, and am, now regular (again) at the LMAO.

My experience has given me a broad perspective of many of our bargaining issues, but it has also provided me with some specific insight into the differing issues for our “remote” offices compared to our “centralized” offices – and how we can come together to bargaining for all our MoveUp colleagues. My legal background assists with an ability to read the law – and understand the importance of specific language.
